## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 4-6, 17, 18, 19, 21, 23 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 recites the limitation "the vent" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites "the assembly" in line 2. It is uncertain whether it is in reference to the "hose-end sprayer assembly" or the "vent plug assembly."

Claim 17 recites the limitation "the vent" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 18 recites the limitation "the vent" in line 2. There is insufficient antecedent basis for this limitation in the claim.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-5, 9, 16, 17, 20, 22 are rejected under 35 U.S.C. 102(b) as being anticipated by George et al. (3,186,643).

George discloses a hose-end sprayer assembly comprising: a housing 20; a rotary valve 26; a vent path 90; means 92 for closing.

#### ***Allowable Subject Matter***

5. Claims 6, 18, 19, 21, 23 and 24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
6. Claims 7, 8, 10 and 11-15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Stooddy and Bishop disclose rotatable valves and vent passages.
